

REMARKS

Applicant's Attorney has requested various changes to the drawings. In particular, Applicant's Attorney has requested that:

- a. Reference symbol "146" be added to the narrow region directly above right-hand region 130M in Fig. 3.2 just as the region narrow directly above left-hand region 130M is labeled "146";
- b. The labels "Field-Induced Channel" in Figs 8 and 10 and "Field-Induced-Channel" in Fig. 11 be changed to "Field-induced Channel" to conform with the use of the label "Field-induced Channel" in Fig. 9;
- c. The lead line for reference symbol 42P in Fig 12s.1 be extended sufficiently downward so that the region directly above item 40 is labeled "42P" just as the region directly above item 40 is labeled "42P" in other figures such as Figs. 12p.1 - 12r.1 and 12t.1 - 12v.1;
- d. The solid-line boundary between n-type region 112P and each n-type region 110EP in each of Figs. 12u.2 and 12v.2 be changed to a dotted line just as the boundary between two like-conductivity-type regions is illustrated as a dotted line elsewhere in the drawings, e.g., in Fig. 3.2 for the boundary between n-type region 112 and each n-type region 110E;
- e. The label "p+" for region 62P in Fig. 12w.1 be deleted since region 62P is not labeled "p+" in immediately preceding Fig. 12v.1 and would not become heavily doped p-type as a result of the step illustrated in Fig. 12w.1;
- f. Redundant reference symbol "34" be deleted along the left-hand side of each of Figs. 12w.1 and 12x.1 since region 34 is so labeled elsewhere in both of those figures;
- g. Redundant reference symbol "114" be deleted along the left-hand side of each of Figs. 12w.2 and 12x.2 since region 114 is so labeled elsewhere in both of those figures;
- h. The solid-line boundary between n-type region 112 and each n-type region 110E in each of Figs. 12w.2 and 12x.2 be changed to a dotted line just as the boundary between two like-conductivity-type regions is illustrated as a dotted line elsewhere in the drawings;
- i. Redundant reference symbol "54" be deleted along the right-hand side of Fig. 12x.1 since region 54 is so labeled elsewhere in that figure; and

j. Redundant reference symbol "134" be deleted along the right-hand side of Fig. 12x.2 since region 134 is so labeled elsewhere in that figure.

Please telephone Attorney for Applicant(s) at 650-964-9767 if there are any questions.
